Colorado Measures of Academic Success score reports feature information that helps parents better understand how well their child has mastered the Colorado Academic Standards in the assessed content areas at the end of the grade level. Data included in this resource are not based on actual 2019 data.

How to Read Your Student’s 2019 Score Report – Page 1

1. **Student Performance Overview** – This section provides your child’s overall score. Students receive a numerical overall score and, based on that score, are included in one of five performance levels. The percentile ranking shows how well your student performed in comparison to other students in the state. For example, a student in the 56th percentile performed better than 56 percent of students in the state. The concepts and skills typically demonstrated by students within your child’s performance level are included in the Performance Level Descriptor section on the bottom of page one.

2. **Performance Levels** – Performance levels describe how well students met the expectations of their grade level. Each performance level is defined by a range of scores. The highest two performance levels indicate that students met or exceeded expectations and are on track for the next grade level. The lower three performance levels indicate that students are not yet fully meeting grade-level expectations.

3. **Score Range** – Scale scores are represented by diamonds on the graph. The arrows around your student’s diamond show the range of scores your student would likely receive if the test was taken multiple times. Arrows around the example student’s diamond show that the student would have scored in the same performance level if the test was taken multiple times.

4. **Overall Score Comparisons** – School, district and state diamonds represent the average scores of students taking the same test as your child. Use the score averages to see how your child’s score compares to other students taking these tests. In this example, the student scored lower than the school, the same as the district and higher than the state.

5. **State Performance** – The bars beneath the overall performance graphic give you a sense of how your child’s performance compares to others in Colorado by showing the percentage of students who performed at each of the five performance levels.
Where can I learn more?
Colorado Measures of Academic Success tests are aligned with the Colorado Academic Standards. Statewide assessments provide point-in-time snapshots of what students know and can do in core academic areas. They help students and their families know how they are performing compared to the standards and compared to their peers. To learn more, visit:
