## What is the Denver Public Schools (DPS) Parent/Student Portal?

The portal is a secured website designed to support parents and students in monitoring student progress. The goal of the Portal is to provide parents and students a user-friendly, visually graphic, online tool to drive meaningful conversations about academic progress.

## What is the value to me as a parent/guardian or a student?

- ❖ Strengthen communication and academic partnership between teachers, students and parent/guardians.
- ❖ Save time and effort by checking student academic progress online, decreasing the amount of time traveling to school and on the phone.
- ❖ Empower yourself to be an advocate for student success.
- ❖ View student's grades, assignments, attendance, academic resources to use at home and much more!
